

SABBIR AHMED SAM

Senior Software Engineer & Lead Developer | WordPress.org Core Contributor | Full-Stack & AI Engineer

samdevs14@gmail.com | Bangladesh · Remote-friendly | linkedin.com/in/sabbirsam | github.com/sabbirsam | kaggle.com/md-sabbir-ahmed-sam

PROFILE

Senior Software Engineer and Lead Developer at WPPOOL with 6 years of experience building production-grade WordPress plugins and WooCommerce automation tools used across 1,0000+ live stores. Full Stack lead developer of WPAzleen as a side project, a personal WordPress plugin brand ("Innovation in Code") focused on AI-native products. WordPress.org Core Contributor and regular speaker/attendee at WordCamp Sylhet & WordCamp Dhaka. Currently deepening expertise in Retrieval-Augmented Generation (RAG) pipelines, autonomous AI agents, and Model Context Protocol (MCP) tooling - wiring them directly into shipped WordPress products.

6 YEARS EXPERIENCE	17 PLUGINS SHIPPED	1000+ SITES POWERED	2 WORDCAMPS

EXPERIENCE

Senior Software Engineer / Lead Developer — WPPOOL Present · 6 Years

- Leading development on WooCommerce sync and automation plugins used across thousands of live stores.
- Architect production PHP backends, REST endpoints, and database schemas for high-order-volume WooCommerce environments.
- Own root-cause debugging and long-term reliability for sync tools spanning multiple stores, vendors, and Google Sheets integrations.

Lead Developer — WPAzleen Since 2025 · Side Brand

- Building AI-native WordPress products: AskAny (AI chatbot), Shop Explorer, Product Display, PEIWM, SimpleForm and Notifier to Slack.
- Own full product lifecycle — architecture, React/Alpine.js UI, WPCS-compliant PHP, Playwright test coverage, and WordPress.org release readiness.

WordPress.org Core Contributor — WordPress.org Ongoing

- Contributing to WordPress core and the plugin ecosystem.
- Regular speaker/attendee at WordCamp Sylhet and WordCamp Dhaka.

Support Engineer & QA — WPPOOL ~1 Year

- Supported live plugins in production — triaged customer issues, root-caused recurring bugs, and tested releases before shipping.

Intern — Junior WordPress Developer — WPPOOL Sep 2020 – Mar 2021

- Learned plugin development and WooCommerce fundamentals from the ground up.

AI Researcher — AISIP (Applied Intelligent System & Information Processing) Feb 2020 – Sep 2021

- Worked alongside a university professor on applied AI research, culminating in a published paper on CNN-based musical genre classification (Marsyas audio dataset).

PLUGINS & PRODUCTS

WPAzleen (own brand)

AskAny — AI Chatbot [WPAzleen · AI](#)

AI-integrated chatbot for WordPress answering visitor questions from real site content via a RAG pipeline.

[PHP](#) · [RAG](#) · [JavaScript](#) · [REST API](#)

Shop Explorer [WPAzleen](#)

Admin dashboard surfacing orders, products, and customer insight in one view for WooCommerce stores.

[React](#) · [SCSS](#) · [WooCommerce](#) · [PHP](#)

Product Display [WPAzleen](#)

Conversion-focused WooCommerce product layout plugin with glassmorphism CTA styles.

[WooCommerce](#) · [SCSS](#) · [JavaScript](#) · [PHP](#)

Post Export Import with Media [WPAzleen](#)

Moves posts and attached media between WordPress sites, with WPML and author mapping support.

[PHP](#) · [WPML](#) · [WordPress Core](#)

Notifier to Slack [WPAzleen](#)

Real-time WordPress and WooCommerce event notifications delivered straight into Slack channels.

[PHP](#) · [Slack API](#) · [Webhooks](#)

WPPOOL

Multi Store Sync Addon for FlexStock [WPPOOL](#)

Keeps inventory and orders in sync across multiple WooCommerce stores from a single source of truth.

[PHP](#) · [Alpine.js](#) · [WooCommerce](#) · [SCSS](#)

Multivendor Addon for FlexStock [WPPOOL](#)

Extends FlexStock into a multivendor marketplace with per-vendor stock and order routing.

[PHP](#) · [WooCommerce](#) · [Dokan](#) · [WCFSM](#)

Order Sync with Google Sheets for WooCommerce [WPPOOL](#)

Mirrors new WooCommerce orders into Google Sheets in real time for easy reporting.

[PHP](#) · [Google Sheets API](#) · [WooCommerce](#)

Stock Sync with Google Sheet for WooCommerce [WPPOOL](#)

Two-way stock quantity sync between WooCommerce and Google Sheets to prevent overselling.

[PHP](#) · [Google Sheets API](#) · [WooCommerce](#) · [REST API](#)

Sheets to WP Table Live Sync [WPPOOL](#)

Live-syncs Google Sheets data into dynamic, always-current WordPress tables.

[PHP](#) · [Google Sheets API](#) · [JavaScript](#)

Social Contact Form [WPPOOL](#)

Lightweight contact form plugin with social sign-in options for faster lead capture.

[PHP](#) · [OAuth](#) · [JavaScript](#)

RESEARCH & PUBLICATIONS

CNN-Based Musical Genre Classification

Published research applying convolutional neural networks to genre classification on the Marsyas audio dataset.

Conducted at AISIP alongside a university professor.
